1. RISK FACTORS

1.1 Risk Factors Related to the Issuer

Activities of the KOFOLA S.A. Group's companies, their financial position and results of operations are subject to, and may in the future be subject to negative changes as a result of the occurrence of any of the factors described below. Occurrence of even some of these risk factors may have a materially adverse effect on the business, financial condition and financial results of the Issuer or KOFOLA S.A. Group as a whole, and in consequence may affect the Issuer's ability to fulfil its obligations under the Notes issued under this Prospectus. Most of those factors are of contingent nature, and may or may not occur and the Issuer is not able to express its view on their probability of occurrence. The factors presented below represent the key risks inherent in investing in the Notes issued under this Prospectus. The order in which they were presented is not an indication as to their significance, or probability of occurrence, or of the potential impact on the KOFOLA S.A. Group. Other risks, factors and uncertainties than those described below, including also those which the KOFOLA S.A. Group is not currently aware of or which are considered to be minor, may also have an important negative impact on the KOFOLA S.A. Group's operations, financial position and results of operations in the future. Prospective investors should read the detailed information provided in this Prospectus as well as get acquainted with the historical financial reports and other information available prior to making any investment decision. Prospective investors should also seek advice from their own legal, financial and tax advisors about the risks associated with investment into any Notes issued under this Prospectus and assess the suitability of investment into such Notes against their own risk profile.

Prospective investors among the other things should consider the following:

DEPENDENCE ON THE CASHFLOW FROM SUBSIDIARIES

The Issuer is a holding company and many of the risk factors relate to the operations of its Subsidiaries. The ability of the Issuer to meet its financial obligations related to the Notes will depend on the ability of the Subsidiaries to generate cash and pay dividends.

RISK ASSOCIATED WITH THE MACROECONOMIC SITUATION OF THE COUNTRIES IN WHICH THE GROUP OPERATES

The economic position of KOFOLA S.A. Group companies is closely correlated with the economic situation in the Czech Republic, Poland, Russia and Slovakia, which are the most important markets for the sale of the KOFOLA S.A. Group's products. Macroeconomic factors such as GDP growth, unemployment, effective growth of wages, availability of the consumer loans or the economic outlook translate into the willingness of the citizens of these countries to purchase the products manufactured by the KOFOLA S.A. Group companies, select between the branded or private label food products and consumption patterns outside of their homes. In consequence, consumers' behaviour in those countries may affect the sale of the KOFOLA S.A. Group products.

Increasing risk aversion of banks due to the market situation related to the crisis in Europe may cause increased fiscal pressure on households' situation in the Czech Republic, Slovakia, Poland and Russia. Policies adopted by the governments and the central banks of the countries where KOFOLA Group companies operate may have a negative impact on currency exchange rates, interest rates and other instruments traded in the European financial markets, and in consequence may lead to a more difficult access to financing.

As a result of the mutual interdependence, an escalation of the fiscal crisis in the European region, can negatively affect any variables reflecting economic viability, and thus may affect the results of KOFOLA S.A. Group.

RISK OF CHANGES IN THE PRICES OF RAW MATERIALS

Production costs of soft drink in large part depend on the raw materials prices, in particular sugar, isoglucose, PET resins (that are used to produce PET bottles), fruit concentrates, foil, paper, and, indirectly, crude oil. The majority of the key raw materials constitute or are linked to the so-called commodities, which are subject to significant fluctuations in the world's markets. Sudden changes in the raw materials prices may have a significant effect on the margins earned on the sale of beverages, and therefore fluctuations of the KOFOLA S.A. Group's profitability and its ability to generate cash.

RISK RESULTING FROM THE SEASONAL WEATHER CONDITIONS

The sale of non-alcoholic beverages is highly dependent on weather conditions, in particular temperature and precipitation. Nearly 60% of the KOFOLA S.A. Group's sales is realised in the second and third quarters of a year, reaching a peak during the hottest summer months. Rainy and cool summers may result in the low level of revenues, in particular in the water segment. An unusually hot summer, on the other hand, may trigger larger than expected demand from the customers and in consequence inability of the KOFOLA S.A. Group companies to deliver sufficient quantities of products to retailers, which could result in potential penalties for service level below the agreed thresholds.

RISK OF LOSING LARGE CLIENTS

A significant portion of the revenues earned by the KOFOLA S.A. Group companies comes from clients that operate chains of the grocery stores, supermarkets, hypermarkets and discount stores. In recent years, there is a visible trend of trade volumes moving from the traditional corner shops to the larger operators of the chain stores (sometimes called the Modern Trade channel). In consequence, those chains, especially the discount store operators, are becoming stronger and increase their share in the revenues of the KOFOLA S.A. Group companies. Those chains are tough negotiators, which increases the risk of lack of agreement on the terms and conditions and in consequence loss of a significant client, adversely impacting the revenues and/or bringing about the necessity of costs cutting measures to adjust the cost structure to the reduced sales level, which can lead to a decrease in profitability and an impaired ability to generate cash.

RISK RESULTING FROM HIGHLY COMPETITIVE ENVIRONMENT

Companies belonging to the KOFOLA S.A. Group operate in a highly competitive market where both multinational and local producers compete against each other through offering a wide range of products. Due to this competitive environment, any changes in the current trends in beverage industry and consumer behaviour pose additional risk of downward pressure on the selling prices and/or a possibility of losing the market shares in the individual product categories or in the overall soft drinks market. Consequently, KOFOLA S.A. Group may suffer margins decline and generate less cash.

RISK ASSOCIATED WITH PRICING BEHAVIOR OF MAIN COMPETITORS

The pricing policy of the main competitors lies beyond influence of the KOFOLA S.A. Group. Changing approach to pricing policy by the strong players may result in a market pressure on the KOFOLA S.A. Group companies to adjust their pricing to the current market trends and negatively impact achieved margins and in consequence the amounts of generated cash.

DIFFICULTY IN TRANSFER OF THE RISING RAW MATERIAL PRICES TO THE END CONSUMERS

The raw materials prices, in particular those that are based on commodities or harvest levels, are prone to fluctuations during short periods as well as to long term trends. Terms and conditions between the companies in the KOFOLA S.A. Group and their customers are typically concluded for 12-month periods and therefore the KOFOLA S.A. Group companies might have limited possibilities to

adjust upward the selling prices of soft drinks several times during the year to reflect the behaviour of the raw materials prices.

Moreover the large retail chains tend to defend the end consumers and resist price increases. That difficulty in the transfer of rising raw materials prices to the end consumers might impact the margins realized on the sale of soft drinks and, hence, the ability of the KOFOLA S.A. Group to generate cash.

IT RISK

The KOFOLA S.A. Group companies in order to carry out day-to-day business rely on information technology supporting all major processes in the business (both maintained in-house as well as outsourced to third parties). The KOFOLA S.A. Group companies may thus encounter system failures including but not limited to power losses, computer break-downs, computer viruses or security breaches which may also be caused by third parties. Any failure of the information systems may result in a disruption of the daily operations, which could have an adverse effect on the KOFOLA S.A. Group's revenues, relations with customers in case of under-deliveries of products and in consequence the profitability and the ability to generate cash.

CREDIT RISK

In conducting its trade activity, the KOFOLA S.A. Group companies primarily realise the sales of their products and services to the customers with deferred payments therefor. As a result, KOFOLA S.A. Group companies are exposed to a credit risk of the respective counterparty's failure to pay for the delivered products or services. A failure to pay by a large customer could have an adverse impact on the KOFOLA S.A. Group profitability and its ability to generate cash.

RISK OF PRODUCT CONTAMINATION

Like other food products, beverages are produced in the environment of a high level of care and high production standards using regularly controlled raw materials. Despite those measures, it may happen that the natural raw materials will contain an undesired contamination that will unintentionally penetrate to the end product making it unsuitable for consumption.

Moreover despite the quality control along all the supply chain, it may also happen that the products will be intentionally contaminated by humans in an act of terrorism or blackmail.

Intentional or unintentional product contamination may results in a loss of reputation of a brand or manufacturer that in consequence may adversely impact the sales of that brand or even all products manufactured by that manufacturer in the particular market in the long term and lead to the necessity to recall the products from the market and reduce their use in a short term. Any such event could adversely impact the level of sales and in consequence the profitability and the ability to generate cash.

In extreme cases product contamination could lead to such damage to the brand being contaminated that the KOFOLA S.A. Group will be forced to completely withdraw such brand from the market.

RISK OF TERMINATION OF FINANCING FACILITIES

Companies of the KOFOLA S.A. Group use external financing in a form of bank loans, issued notes, leasing as well as the trade finance solutions like factoring and receivables discounting. The financing arrangements are concluded for the specified time periods and are typically extended at maturity upon the fulfilment by the company being financed of certain terms and conditions (so called covenants).

Deterioration in the financial performance or other non-adherence to the defined terms and conditions can lead to a lack of extension of the financing facilities or in extreme cases cancellation of the financing contracts, exposing the KOFOLA S.A. Group companies to the necessity of refinancing.

Termination of the financing facilities may also happen on the bank's decision to reduce or completely withdraw from the exposure in the particular market where the KOFOLA S.A. Group companies operate.

In a case of the insufficient external financing, the KOFOLA S.A. Group may be forced to curtail the scale of its operations and in extreme cases be forced to dispose of some of its assets to release cash. Such steps could impair the KOFOLA S.A. Group's profitability and its ability to generate cash.

RISK OF IMPAIRMENT OF GOODWILL OR KEY BRANDS

The sale of beverages is subject to fluctuations associated with, among others, the weather, the promotional campaigns conducted by the competition and fashion trends. Margins on sales are also subject to changes, arising mainly out of the prices of raw materials and pricing competition in the various beverage segments.

In view of this, fluctuations may also affect the value of the brands owned by the KOFOLA S.A. Group companies. A change in the volume of sales, a brand's profitability or the assumptions used in impairment tests may lead to the need to recognise an impairment of a brand or goodwill, and thus negatively affect the KOFOLA S.A. Group's reported financial results.

RISK OF INCOMPLETE UTILISATION OF TAX INCENTIVE IN KOFOLA A.S. (CZ)

In January 2008, by the decision of the Ministry of Industry and Trade of the Czech Republic, Kofola a.s. (CZ) (a member company of the KOFOLA S.A. Group) received a consent to be provided with investment incentives in the form of corporate income tax relief for the period of 10 consecutive years. The total amount of the state support in the form of investment incentives should not exceed CZK 161.04 million. This support was already recognized as a deferred tax asset in 2008 and 2009. There is a risk that the future profit before tax achieved by Kofola a.s. (CZ) might be insufficient to fully utilize this tax incentive and in that case the previously recognized deferred tax asset will have to be released decreasing the net profit of Kofola a.s. (CZ) and, as a consequence, the consolidated net profit of the KOFOLA S.A. Group.

RISK OF LOSS OF INTELLECTUAL PROPERTY RIGHTS

A very important component of the long-term assets of the KOFOLA S.A. Group is its intellectual property, in particular the beverages trademarks. The companies within the KOFOLA S.A. Group holding those intellectual rights keep those rights registered and protected in the relevant local authorities in each state where the KOFOLA S.A. Group operates. The periods of intellectual property protection are monitored and prolonged when appropriate. Those rights to the intellectual properties can be subject to hostile activities like imitations, copying or attempts to seize such property at the protection expiry period. Therefore there is a risk of infringement on, or misappropriation of, those intellectual properties which in consequence would undermine the competitive position of the KOFOLA S.A. Group and result in a decrease in sales volumes.

RISK OF BUSINESS INTERRUPTION

Companies of the KOFOLA S.A. Group are exposed to the risk of business interruption that might be caused by several factors and accidental events, including but not limited to, fire, floods, breakdowns of the production lines, malfunctions in functioning of the ERP (Enterprise Resource Planning) system and similar. Any such business interruption could from time to time put one or more of the production plants or customer service departments from operation and, thus, decrease the sales volumes.

RISK OF PENALTIES FOR UNDER-DELIVERIES

The KOFOLA S.A. Group companies, according to the prevailing market standards, have the contract clauses specifying their obligations to deliver certain quantities of the products to the key customers and/or the minimum percentage of deliveries versus the orders. Unfulfilled obligations or the percentage of realized deliveries below the defined thresholds can result in contractual penalties to be paid by the KOFOLA S.A. Group companies, which will lead to a reduction in the profitability of the KOFOLA S.A. Group.

RISK OF UNSUCCESSFUL INTEGRATION AFTER MERGER

Pursuing its development strategy, the KOFOLA S.A. Group seeks acquisition targets in order to consolidate the market and acquire brands or companies fitting its product portfolio or having the unexplored market potential. Each completed acquisition carries a risk of unsuccessful integration of the acquired company into the KOFOLA S.A. Group structures, and therefore a risk of failing to achieve the pre-acquisition financial targets.

RISK ASSOCIATED WITH LOSING KEY MANAGEMENT PERSONNEL

The activities of the KOFOLA S.A. Group and its key companies depend on the experience, knowledge and qualifications of its managers, who are responsible for the different areas of the KOFOLA S.A. Group's operations. Significant demand for sales, marketing, R&D or finance specialists, as well as competitors' recruitment activities may cause the loss of some of the key employees. Losing a key person or persons may have a negative effect on the KOFOLA S.A. Group's relationship with its clients, or may slow down the pace of the KOFOLA S.A. Group projects.

FOREIGN EXCHANGE RISK

More than half of the raw materials used for production are purchased in euro or in the local currency but with the pricing derived from euro. Therefore, the results of the KOFOLA S.A. Group are subject to fluctuations in the foreign exchange rates of euro and the local currencies. Despite the applied hedging policy, the KOFOLA S.A. Group might not be able to hedge all the currency risks, in particular in the longer periods.

The KOFOLA S.A. Group companies make the internal settlements for the shared services provided by Kofola ČeskoSlovensko a.s. in Czech crowns. The Issuer provides the financing for the Czech and Slovak operations via Kofola ČeskoSlovensko a.s. in a form of the intragroup loans denominated in Czech crowns. Therefore the Issuer and the KOFOLA S.A. Group are exposed to the fluctuations of the foreign exchange rates against the Czech crown.

INTEREST RATE RISK

The KOFOLA S.A. Group companies use external financing facilities to finance their long term assets as well as the working capital. Most of those financing facilities bear the floating interest rate and, therefore, depend on the behaviour of the base interest rates in the interbank market and the interest rate policies adopted by the relevant central banks. The rapid and unexpected changes in interest rates might result in an increase in the financing costs and in consequence negatively impact the KOFOLA S.A. Group's profitability and its financing cash flows.

At the time of this Prospectus, the KOFOLA S.A. Group did not protect itself against changes in interest rates.

RISK OF CHANGES IN TRADE STRUCTURE

In the recent years, the food and beverage manufacturers observe changes in the structure of the retail shops with the economic slowdown making the retail discounters a more attractive place to shop for consumers, which redirects trading volumes from the fast developing hypermarket and supermarket chains. The accelerating speed of life directs the customers to more convenient places for purchases, which diminishes the significance of the traditional corner food shops. The changes in the retail structure, if not properly and timely recognized and addressed by adjustment to the KOFOLA S.A. Group business model, might have an adverse impact on the sale volumes and, in consequence, the KOFOLA S.A. Group's profitability and its ability to generate cash.

RISK OF FUEL PRICE INCREASES

Most of the soft drinks manufacturers use diesel trucks to deliver their products. Therefore, the rising fuel prices (either related to the crude oil prices or the level of the excise duty on diesel fuel) can have a negative impact on the transportation costs and in consequence on the KOFOLA S.A. Group profitability and its ability to generate cash.

RISK OF ELECTRICITY PRICE INCREASES

Production processes consume significant volumes of electricity, in particular for heating and PET bottles blowing. Increases in energy prices can have a negative impact on the production costs and in consequence on the KOFOLA S.A. Group profitability and its ability to generate cash.

RISK ASSOCIATED WITH LEGAL REGULATIONS

Changing legal regulations, in particular tax, labour law and social insurance regulations, VAT rates, matters relating to the granting of licenses and permits (for example for the production and sale of alcoholic beverages) may affect the personnel costs of the KOFOLA S.A. Group's companies, the prices of products on store shelves, or the ability to produce and sell a portion of their portfolio (this pertains in particular to low-alcohol beverages ("alco-pops") in Russia).

The Russian government, in order to reduce the alcoholism problem in Russia, in the recent years introduced a number of limitations to sale and marketing of alcoholic beverages including, *inter alia*, restrictions to sell alcoholic beverages after 10:00 p.m., increasing the level of exercise duty, reducing the number of off-licence shops and reducing the maximum alcohol content of alco-pops. Those steps may result in decreased consumption of alcoholic beverages and partial transfer of consumers to the so-called 'grey economy'.

Changes in the level of VAT rates on soft drinks may also adversely impact the level of sales of the Kofola S.A. Group products.

In some countries the restrictions on sale of high sugar content of beverages or additional product fees for products with high sugar content have already been implemented. There is a risk that similar regulations could be the implementation in the countries, where the KOFOLA S.A. Group companies operate as well.

In some developed countries restrictions on single use of PET bottles or special product charges for drinks in such bottles promoting multi-usage of PET bottles have been implemented. There is a risk that the governments of countries where the KOFOLA S.A. Group companies operate will introduce such product charges to discourage the sale of products in single use PET bottles or introduce the necessity to sell the soft drinks in multi-usage PET bottles. Such measures, if implemented, could have an adverse effect on the KOFOLA S.A. Group's profitability or its ability to generate cash.

LOSS OF LICENSE TO PRODUCE AND SELL ALCOHOL PRODUCTS

The two Russian companies belonging to the KOFOLA S.A. Group were granted licenses to produce and sell the low alcohol beverages that are valid until October 2016. The licensees are subject to verification of compliance by the local regulator. A failure to do so might result in suspension or withdrawal of one or more licenses. A lack of license to sell low alcohol beverages could lead to significantly reduced revenues of the Russian companies belonging to the KOFOLA S.A. Group.

There is also a risk that those licenses may not be extended beyond the date indicated above. This could have an adverse effect on revenues of one or both of the Russian companies belonging to the KOFOLA S.A. Group.

POLISH INSOLVENCY LAWS MAY PROVIDE INVESTORS WITH LESS PROTECTION THAN CZECH INSOLVENCY LAWS

The Issuer is incorporated under the laws of the Republic of Poland and its shares are listed on the Warsaw Stock Exchange. The insolvency laws of the Republic of Poland may be materially different from the laws of the Czech Republic or other jurisdictions with which investors are familiar, including in respect of reorganization, priority of creditors, the ability to obtain post-petition interest and the duration of the insolvency proceedings, and, thus, may limit investors' ability to recover payments due on the Notes to an extent exceeding the limitations arising under other insolvency laws. In the event that the Issuer or any Subsidiary of the Issuer experiences financial difficulty, it is not possible to predict with certainty the outcome of such proceedings. This may adversely affect investors' ability to enforce their rights against the Issuer in Poland and limit any amounts that they may receive from the Notes.

1.2 Risk Factors Related to the Notes

GENERAL RISKS RELATED TO NOTES

Each potential investor in the Notes must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should:

- (a) have sufficient knowledge and experience to make a meaningful evaluation of the Notes, the merits and risks of investing in the Notes and the information contained or incorporated by reference in this Prospectus or any of its supplements;
- (b) have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, investment in the Notes and the impact the Notes will have on its overall investment portfolio;
- (c) have sufficient financial resources and liquidity to bear all of the risks of an investment in the Notes;
- (d) understand thoroughly the terms of the Notes (especially the Terms and Conditions, this Prospectus and its supplements) and be familiar with the behaviour or development of the respective financial market; and
- (e) be able to evaluate (either alone or with the help of a financial adviser) possible scenarios of further development of economics, interest rates and other factors that may affect its investment and its ability to bear the applicable risks.

The Notes are complex financial instruments. Institutional investors purchase complex financial instruments with adequate risk, the level of which they are aware of, in order to decrease risk or increase profit of their overall portfolios. A potential investor should not invest in Notes which are complex financial instruments unless it has the expertise (either alone or with a financial adviser) to evaluate the performance of the Notes under changing conditions determining the value of the Notes and the impact this investment will have on the potential investor's investment portfolio.

LIQUIDITY RISK

The Issuer applied for admission of Notes to trading at the Prague Stock Exchange (regulated market). There can be no assurance that there will be a liquid secondary market for the Notes or, if such will develop, that it will last. The fact that Notes are listed on a regulated market does not necessarily lead to higher liquidity of the listed Notes than the unlisted ones. The investor may not be able to sell the Notes at any time at a fair market price on an illiquid market.

TAXATION

Potential purchasers and sellers of the Notes should be aware of the fact that they may be required to pay taxes or other charges according to the laws and practices of Poland or the state where the Notes are transferred or in another jurisdiction relevant in the situation given. In some countries no official statements of tax offices or court rulings in the matter of financial instruments such as the Notes may be provided. Potential investors should not rely on the brief summary of tax matters included in this Prospectus when purchasing, selling or repaying these Notes, but they should act according to the recommendation of their financial advisors regarding their individual taxation. Investment according to the risks stated in this section should be considered taking into account at least the chapter "Taxation" of this Prospectus.

LEGALITY OF PURCHASE

Potential purchasers of the Notes (in particular foreign entities) should be aware that the purchase of the Notes may be subject to legal restrictions affecting the validity of the purchase. Neither the Issuer, potential dealers nor any of their respective affiliates has or assumes responsibility for the legality of the acquisition of the Notes by any potential purchaser of the Notes, whether under the laws of jurisdiction of its incorporation or jurisdiction where it operates (if different). A potential purchaser cannot rely on the Issuer, potential dealers or any of their respective affiliates when deciding in the matter of legality of Notes purchase.

CHANGE OF LAW

Terms and Conditions of the Notes are governed by Czech law in force as of the date of this Prospectus. No assurance can be given as to the impact of any possible judicial decision or change to Czech law or administrative practice after the date of this Prospectus.

SPECIFIC RISKS RELATED TO FLOATING RATE NOTES

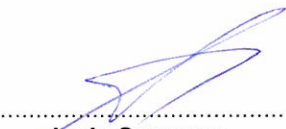

A Noteholder of a floating rate Note is exposed to the risk of variation of interest rates or values of underlying assets, as well as of uncertain interest income. Floating interest rates do not ensure an anticipated determination of a profit from the floating rate Notes. The Notes, the profit of which depends on the development of the reference rates, are sophisticated credit instrument.

The auditor's opinion on consolidated financial statements as of 31 December 2011 issued by BDO Sp. z o.o. included an emphasis of matter in the following wording:

„Without qualifying our opinion we draw your attention to the fact that in its financial statements the Group discloses 89.183 thousand zł in goodwill formed at the acquisition of the subsidiary Hoop Polska Sp. z o.o. Based on the results of an impairment test performed by the Management of the Holding Company, the Management did not perform a revaluation write down of the goodwill, which has been described in point 5.15 of the financial statements. The recoverable amount of the goodwill depends on the realization of financial plans, including operating result assumptions. Because the assumptions adopted in previous years had not been realized, and the negative deviations from the adopted values were significant, there is an uncertainty with regard to the realization of the adopted assumptions, and in consequence the recoverable amount of the goodwill.“

11.3 Legal and Arbitration Proceedings

The KOFOLA S.A. Group is involved in certain legal proceedings that are incidental to the ordinary conduct of its business. The Issuer does not conduct any judicial, administrative or arbitration proceedings and has not conducted such proceedings in the period of past 12 months, which, in the Issuer's best opinion, could have/had in the past 12 months material impact on the financial situation and/or profitability of the Issuer or KOFOLA S.A. Group.

11.4 Significant Change in the Issuer's Financial or Trading Position

No significant changes in the financial or trading situation of the Issuer or KOFOLA S.A. Group have occurred since the publication of the audited financial statements for the year ended 31 December 2012.

11.5 Management Discussion and Analysis

The management of the KOFOLA S.A. Group, in addition to the consolidated financial statements prepared in accordance with the IFRS, prepares and analyses the consolidated financial results for the managerial purposes ("Management's Discussion and Analysis"), adjusted for the events of non-recurring nature (mostly of non-cash nature) and recalculated using the same foreign exchange rates. Such kind of reporting allows, according to the KOFOLA S.A. Group's management, a better comparison of the recurring operating results between the periods.

The foreign operating companies of the KOFOLA S.A. Group earn their revenues and incur majority of their costs in their local currencies, i.e. Czech crowns, euros and Russian rubles that are then converted into the reporting currency that is Polish złoty (PLN). The fluctuations in the foreign exchange rates of the Czech crown, euro and the Russian ruble to the Polish złoty can impact the consolidated results during consolidation recalculation.

Events of the non-recurring nature constitute all extraordinary items, non-recurring or unusual in nature, including in particular costs not arising from the ordinary operations, such as those associated with impairment of assets, restructurings, lay-offs and employee relocation costs, etc.

For the managerial purposes the KOFOLA S.A. Group's management monitors the coefficient called EBITDA that is defined as the operating result (EBIT) increased by all depreciation and amortisation for that period.

11.6 Consolidated 2011 Income Statement Prepared for Managerial Purposes

Analyzing 2011 results, it should be noted that at the end of 2012 the KOFOLA S.A. Group ceased to consolidate the Megapack Group using the acquisition accounting consolidation and commenced to consolidate the Megapack Group using the equity method. To provide for the comparability between the periods, for the managerial purposes the 2011 income statement has been adjusted as if the Megapack Group was never consolidated using the acquisition accounting consolidation.

In addition, certain adjustments have also been made to analyze the impact of the non-recurring items. The table below presents the selected financial items of the consolidated income statement for the financial year of 2011 that were prepared for the managerial purposes. 2011 EBITDA and the operating profit were affected by the one-off costs of the restructuring of the companies in the Czech Republic and Slovakia amounting in total to PLN 3,343 thousand. The restructuring of those companies comprises unification of the management teams for Kofola a.s. (CZ), Kofola a.s. (SK) and Kofola ČeskoSlovensko a.s. (Kofola Holding a.s. at the moment of restructuring), reduction of one level of the management and headcount reduction of approx. 120 employees from all the departments. The impact of that restructuring on the net profit totaled PLN 2,934 thousand. After accounting for those one-off costs and reflecting the change in the presentation of the Megapack Group as described above the adjusted operating profit amounted to PLN 51,960 thousand, adjusted EBITDA amounted to PLN 120,288 thousand and the adjusted net profit amounted to PLN 27,167 thousand.

Those adjusted results for impact of the one-off events recalculated using 2012 foreign exchange rates would give the operating profit of PLN 51,678 thousand EBITDA of PLN 119,793 thousand and net profit of PLN 26,937 thousand.

In the Issuer's management opinion, the consolidated financial information adjusted by one-off events allows a better comparability of the KOFOLA S.A. Group's recurring results between the periods.

11.7 Consolidated 2012 Income Statement Prepared for Managerial Purposes

Analyzing 2012 results, it should be noted that the KOFOLA S.A. Group recognized the impairment of the fixed asset of PLN 1,670 thousand as the only event of the one-off nature, resulting in the adjustments at the operating profit, EBITDA and the net profit of that value. The consolidated operating profit of the KOFOLA S.A. Group adjusted for that impairment amounted to PLN 28,332 thousand, the adjusted EBITDA amounted to PLN 129,937 thousand and the adjusted net profit amounted to PLN 30,608 thousand.

In the Issuer's management opinion, the consolidated financial information adjusted by one-off events allows a better comparability of the KOFOLA S.A. Group's recurring operating results between the periods.

"**Central Depository**" means Centrální depozitář cenných papírů, a.s., a company with its registered office in Prague 1, Rybná 14, Postal Code: 110 05, ID-No.: 250 81 489, registered with the Commercial Register maintained by the Municipal Court in Prague, Section B, Insert No. 4308.

Unless the Issuer is informed in a credible manner about facts proving that the Noteholder is not the owner of the relevant book-entered securities, the Issuer and the Fiscal and Paying Agent will consider each Noteholder in all aspects as the beneficial owner thereof and will make payments to such Noteholder in accordance with these Terms and Conditions. Persons who are the Noteholders and who are not registered for any reason in the relevant records of holders of book-entered securities will be obliged to promptly notify the Issuer and the Fiscal and Paying Agent of such fact and of their acquisition title to the Notes.

1.5 Rating

The Issuer's financial standing (rating) has not been assessed.

No separate financial rating of the Issue has been assigned and, therefore, the Issue does not have a separate rating.

1.6 Certain Other Obligations of the Issuer

The Issuer undertakes to pay interest on and repay the nominal value of the Notes in the manner and at the place set forth in these Terms and Conditions.

2. Volume of the Issue, Issue Price, Subscription Period, Method of Note Issue

2.1 Issue Date, Subscription Period

The issue date of the Notes is scheduled on 4 October 2013 (the "**Issue Date**"). The Notes may be issued (i) in a single series on the Issue Date, or (ii) in tranches at any time after the Issue Date during the subscription period ending on the Record Date for Nominal Value Repayment (as defined below) (the "**Issue Period**").

Without undue delay after the expiry of the Issue Period, the Issuer will notify the Noteholders, in the same manner as used for publication of these Terms and Conditions, of the aggregate nominal value of all issued Notes comprising the relevant Issue but only in case that the aggregate nominal value of all Notes issued within the relevant Issue is lower than the anticipated aggregate nominal value of the Issue.

2.2 Issue Price

The issue price of any Notes issued on the Issue Date is equal to 99 per cent. of par value. The issue price of any Notes issued after the Issue Date will be determined by the Issuer taking into account the current market conditions. Where relevant, a corresponding accrued interest will be added to the amount of the issue price for any Notes issued after the Issue Date.

2.3 Method and Place of Note Subscription

The Notes will be offered for purchase by the joint lead managers of the Issue, Česká spořitelna, a.s., and PPF banka a.s. (the "**Joint Lead Managers**"), to Czech or foreign qualified investors (under Act No. 256/2004 Coll., on Capital Market Undertakings, as amended) and selected individuals, in accordance with applicable laws.

On 7 August 2013 the Issuer and the Joint Lead Managers entered into a mandate agreement under the terms of which the Notes will be placed in the market on a "Best Efforts Basis", i.e. the Joint Lead Managers will use their best efforts to place the Notes on the domestic capital market; however, the Joint Lead Managers will in no case be obliged to subscribe any unplaced Notes themselves.

The investors will be approached by the Joint Lead Managers, in particular by means of distance

communication in compliance with applicable laws (e-mails, telephones, etc.), starting on 25 September 2013 and asked to place binding orders to purchase the Notes. Prior the Issue Date the Issuer intends to conclude a subscription agreement with the Joint Lead Managers as the initial purchasers (subscribers) of all placed Notes. The scope of such agreement includes the Issuer's duty to issue, and the Joint Lead Managers' duty to subscribe for and purchase, the Notes subject to the conditions set forth in the subscription agreement to purchase the Notes.

On a relevant settlement date agreed to in the subscription agreement to purchase the Notes, the Notes will be allocated to the Joint Lead Managers against payment of the issue price (or the issue price reflecting the corresponding accrued interest yield, if any) by crediting them into a respective account notified by the Issuer to the Joint Lead Manager for this purpose. The Notes will be subsequently (preferably on the same day) resold by the Joint Lead Managers to the investors.

3. Status of the Notes

The Notes (and any and all payment liabilities of the Issuer to the Noteholders under the Notes) constitute direct, general, unsecured, unconditional and unsubordinated obligations of the Issuer which rank and will always rank *pari passu* without preference among themselves, and at least *pari passu* with any other present or future unsubordinated and unsecured obligations of the Issuer, except for such obligations of the Issuer as may be preferred by mandatory provisions of applicable law. The Issuer undertakes to treat under the same circumstances all Noteholders equally.

4. Negative Pledge and Other Covenants

4.1 Negative Pledge

So long as any Note remains outstanding the Issuer will not create or permit to subsist any Security Interest (other than a Permitted Security Interest) (as these terms are defined in Article 15 of these Terms and Conditions) upon the whole or any part of its present or future undertaking, assets or revenues (including uncalled capital) to secure any bonds, notes, commercial papers or other debt securities or any guarantee of any such debt securities without at the same time or prior thereto (i) securing the Notes equally and ratably therewith or (ii) otherwise secured as approved by a resolution of the Noteholders' Meeting in accordance with Article 12 of these Terms and Conditions.

Notwithstanding the foregoing the Issuer will use all reasonable endeavors to ensure that the "Kofola" brand is not pledged to secure any Indebtedness (as defined in Article 15 of these Terms and Conditions).

4.2 Limitation on Asset Sales

The Issuer may not, and will procure that each of its Material Subsidiaries (as defined in Article 15 of these Terms and Conditions) does not, sell, lease, transfer or otherwise dispose of (each such action, a "**disposal**") by one or more transactions or series of transactions (whether related or not), the whole or any part of its revenues or its assets to any Person (as defined in Article 15 of these Terms and Conditions), except where:

- (a) the consideration received by the Issuer or such Material Subsidiary is of at least 75 per cent. in cash or cash equivalent, and is not less than the Fair Market Value (as defined in Article 15 of these Terms and Conditions) of the assets or revenues disposed;
- (b) immediately before or after giving effect to such disposal, no Event of Default or potential Event of Default (as defined in Article 9.1 of these Terms and Conditions) shall have occurred and be continuing as a result of such disposal; and
- (c) the proceeds of any such disposal are used to refinance any Indebtedness or are reinvested in the KOFOLA S.A. Group's business (as defined in Article 15 of these Terms and Conditions).

4.3 Limitation on Indebtedness

- (a) The Issuer will not, and will not cause or permit any of its Material Subsidiaries to, directly or indirectly, create, incur, assume guarantee or otherwise become liable for (collectively "**incur**") any Indebtedness, provided, however, that the Issuer or any of its Material Subsidiaries may incur Indebtedness if (i) the ratio of Consolidated Net Debt to Adjusted Consolidated EBITDA (as defined in Article 15 of these Terms and Conditions) for the Issuer's most recently ended four full fiscal quarters for which consolidated financial statements are available immediately preceding the date on which such additional Indebtedness is incurred and after giving effect thereto on a *pro forma basis* (including a *pro forma* application of the net proceeds therefrom) would not have exceeded 3.5 to 1.0 at the date of such incurrence and (ii) no Event of Default or potential Event of Default shall have occurred and be continuing as a result of such incurrence.
- (b) Notwithstanding the limitation on incurrence of Indebtedness set forth in the preceding paragraph the Issuer and any of its Material Subsidiaries may incur any Permitted Indebtedness (as defined in Article 15 of these Terms and Conditions).

4.4 Limitation on Mergers with respect to the Issuer and its Material Subsidiaries

Neither the Issuer nor any of its Material Subsidiaries may enter into any amalgamation, demerger, merger or corporate reorganisation (the "**Merger**"), provided, however, that the Issuer or any of its Material Subsidiaries may enter into a Merger if (i) the Issuer would, at the time of such Merger, have been permitted to incur at least 1.00 CZK of additional Indebtedness pursuant to Article 4.3 (a) above, and (ii) no Event of Default or potential Event of Default shall have occurred and be continuing as a result of such Merger, and (iii) the successor company (if any) is incorporated in the EEA, Switzerland, Canada or the U.S.A. and, in case of a Merger involving the Issuer, assumes all outstanding obligations arising from the Notes.

4.5 Limitation on Acquisitions with respect to the Issuer and its Material Subsidiaries

Neither the Issuer nor any of its Material Subsidiaries may acquire a company or any shares or securities or a business or undertaking (or, in each case, any interest in any of them) or incorporate a company (the "**Acquisition**") provided, however, that the Issuer or any of its Material Subsidiaries may carry out an Acquisition if (i) the Issuer would, at the time of such Acquisition, have been permitted to incur at least 1.00 CZK of additional Indebtedness pursuant to Article 4.3 (a) above and (ii) no Event of Default or potential Event of Default shall have occurred and be continuing as a result of such Acquisition.

4.6 Limitation on Restricted Payments

The Issuer will not, and will not cause or permit any of its Material Subsidiaries to, directly or indirectly, make any payment on or with respect to, or purchase, redeem or otherwise acquire or retire for value, any Indebtedness of the Issuer or any of its Material Subsidiaries that is contractually subordinated to the Notes (excluding any intercompany Indebtedness between the Issuer and any of its Subsidiaries – provided, however, that for intercompany Indebtedness between the Issuer and the Subsidiaries which are not Material Subsidiaries, a cumulative cap since the Issue Date of PLN 10,000,000 in aggregate would apply – but including any shareholder loan or similar financing received from the shareholders of the Issuer or any affiliates thereof which would, on a cumulative basis since the Issue Date, exceed PLN 6,500,000), except for (a) a payment of interest or principal at the stated maturity thereof or (b) the purchase, repurchase or other acquisition of Indebtedness purchased in anticipation of satisfying a sinking fund obligation, principal installment or scheduled maturity (the "**Restricted Payment**"), provided, however, that the Issuer can make a Restricted Payment if (i) the Issuer would, after giving effect thereto on a *pro forma basis*, at the time of such Restricted Payment, have been permitted to incur at least 1.00 CZK of additional Indebtedness pursuant to Article 4.3 (a) above and (ii) no Event of Default or potential Event of Default shall have occurred and be continuing as a result of such Restricted Payment.

The Issuer may not propose to declare, make or pay any dividend, charge, fee or other distribution (or interest on any unpaid dividend, charge, fee or other distribution) (whether in cash or in kind) on or in respect of its share capital (or any class of its share capital) (the "**Distribution**"), provided, however, that the Issuer can make a Distribution if (i) the Issuer would, after giving effect thereto on a *pro forma basis* at the time of such Distribution, have been permitted to incur at least 1.00 CZK of additional Indebtedness pursuant to Article 4.3 (a) above and (ii) no Event of Default or potential Event of Default shall have occurred and be continuing as a result of such Distribution.

Notwithstanding the above the Issuer may, to the extent no Event of Default or potential Event of Default shall have occurred and be continuing as a result of such action, declare and pay dividends of (i) up to PLN 1.35 per share if the ratio of Consolidated Net Debt to Adjusted Consolidated EBITDA does not exceed 2.5 to 1.0, or (ii) up to PLN 1.00 per share if the ratio of Consolidated Net Debt to Adjusted Consolidated EBITDA exceeds 2.5 to 1.0 (but does not exceed 3.5 to 1.0), in each case on a *pro forma basis* after considering the effect of the respective dividend payment. In case of any share splits, new issues or buy back the dividends will be recalculated by the Issuer on a pro rata basis to reflect such events.

The limitations set out above do not apply to any profits retained as to the Issue Date. Such profits will be freely distributable.

4.7 Reporting of the Issuer

If the Issuer ceases to be listed on a European regulated market it will continue providing the same amount of information to the Noteholders, and within the same deadlines, as required by the rules of the European regulated market where the Issuer was last listed.

5. Interest

5.1 Method of Interest Calculation, Interest Period

The Notes will bear the floating interest rate equal to (i) the Reference Rate (see definition below in this [Article 5.1](#)) valid for the relevant Interest Period (see definition below in this [Article 5.1](#)) and determined by the Calculation Agent on the Reference Rate Determination Date (see definition below in this [Article 5.1](#)) plus (ii) the margin of 4.15 per cent. p.a. The interest will be paid annually in arrears, on 4 October of each year (the "**Interest Payment Date**"). The first Interest Payment Date will be 4 October 2014.

"**Reference Rate**" means 12M PRIBOR; "**12M PRIBOR**" means the interest rate in per cent. p.a. offered for the Czech crown that is quoted in the "Reuters Screen Service" PRBO page (or any other official source where such rate will be quoted) as the value of the Prague interbank offer rates for Czech crown interbank deposits for the 12-month period set out by the Czech National Bank and valid on the Reference Rate Determination Date when the Reference Rate is determined. If PRIBOR is not quoted in the aforementioned PRBO page (or other official source) for the relevant 12-month period, then the Calculation Agent will determine 12M PRIBOR from (i) PRIBOR for the nearest longer period for which PRIBOR is quoted in the aforementioned PRBO page (or other official source) and (ii) PRIBOR for the nearest shorter period for which PRIBOR is quoted on the aforementioned PRBO page (or other official source), as the average of the two.

If 12M PRIBOR cannot be determined on any day according to the preceding paragraph, then the Calculation Agent will determine 12M PRIBOR on such day as the arithmetic mean of the interest rates quoted for the sale of Czech crown interbank deposits for such period that corresponds to the relevant 12-month period and the relevant amount obtained on such day after 11:00 (eleven) a.m. Prague time from at least 3 (three) banks operating in the Prague interbank market selected by the Calculation Agent at its sole discretion. If 12M PRIBOR cannot be determined in this manner, then it will be equal to the 12M PRIBOR determined in accordance with the precedent paragraph on the nearest previous Business Day when 12M PRIBOR was determinable in such a manner.

For the avoidance of doubt, if PRIBOR is cancelled or ceases to be generally used in the market for interbank deposits due to the accession of the Czech Republic to the European Monetary Union, the rate that will be generally used in the market for interbank deposits in the Czech Republic will be used instead of PRIBOR.

"**Reference Rate Determination Date**" means the date as of which the Reference Rate for the relevant Interest Period is determined. The Reference Rate Determination Date for the relevant Interest Period will be the 2nd (second) Business Day before the first day of such Interest Period.

For the purposes of these Terms and Conditions, "**Interest Period**" means the period from (and including) the Issue Date to (but excluding) the first Interest Payment Date, and each immediately following period from (and including) the Interest Payment Date to (but excluding) the next Interest Payment Date until the maturity date of the Notes (as specified in [Article 6.1](#) below). For the purposes of the running of any Interest Period, the Interest Payment Date will not be adjusted according to the Business Day Convention (see [Article 7.3](#) of these Terms and Conditions).

The Calculation Agent will round the interest rate for each Interest Period on the basis of mathematical rules to four decimal places according to the fifth decimal place. The Calculation Agent will notify the Fiscal and Paying Agent of the interest rate applicable to each Interest Period promptly after its determination and the Fiscal and Paying Agent will in turn communicate without any undue delay such interest rate to the Noteholders in accordance with Article 13 of these Terms and Conditions.

The interest will accrue evenly from the first day of each Interest Period to the last day included in such Interest Period at the interest rate set forth in this Article 5.1 above.

The amount of interest accrued on 1 (one) Note will be calculated as a multiple of the nominal value of such Note, the relevant interest rate (expressed in decimal form) and the relevant day count fraction as determined according to Article 5.3 of these Terms and Conditions.

5.2 End of Interest Accrual

The Notes will cease to bear interest on the Final Redemption Date (as this term is defined in Article 6.1 of these Terms and Conditions) or on the Early Redemption date (as this term is defined in Articles 6.4.2, 9.2, 12.4.1 and 12.4.2 of these Terms and Conditions), unless the payment of any amount due is unlawfully retained or refused by the Issuer although all relevant conditions and requirements have been complied with. In such event, interest will continue to accrue at the interest rate set forth in Article 5.1 above until the earlier of (i) the date on which all amounts due and payable as of that date in accordance with these Terms and Conditions are paid to the Noteholders or (ii) the date on which the Fiscal and Paying Agent notifies the Noteholders that it has received all amounts payable in connection with the Notes, unless any additional unlawful retention or refusal of payments occurs after such notice.

5.3 Day Count Convention for Interest Calculation

The interest payable on the Notes for a period of less than 1 (one) year will be calculated on the basis of an "Act/360" day count convention, i.e., the actual number of days in the period for which the interest is calculated divided by 360.

6. Redemption and Purchase of the Notes

6.1 Final Redemption

Unless previously redeemed or purchased by the Issuer and cancelled as specified below, the nominal value of the Notes will be redeemed in a single payment on 4 October 2018 (the "**Final Redemption Date**").

A Noteholder is not entitled to demand early redemption of the Notes prior to the Final Redemption Date with the exception of early redemption of the Notes in accordance with Articles 6.4, 9, 12.4.1 and 12.4.2 of these Terms and Conditions.

6.2 Purchase of the Notes

The Issuer is entitled to purchase the Notes at any time on the market or otherwise at any price.

6.3 Cancellation of the Notes

The Notes purchased by the Issuer will not be cancelled, unless decided otherwise by the Issuer. If the Issuer does not decide on the cancellation of the Notes purchased by it, it will be entitled to dispose of such Notes at its sole discretion.

6.4 Early Redemption

6.4.1 The Right of Noteholders to Require Early Redemption upon a Change of Control

If any of the following events occurs:

(a) *Change of Control with respect to the Issuer*

A Change of Control with respect to the Issuer occurs. "**Change of Control**" shall be deemed to have occurred if KSM Investment S.A. ceases to own, directly or indirectly, 40 (forty) per cent. or more of the issued ordinary share capital of the Issuer or voting rights in the Issuer; or

(b) *Change of Control with respect to certain Material Subsidiaries*

A Change of Control with respect to (i) Kofola ČeskoSlovensko a.s. (a company incorporated and existing under Czech law) or (ii) Kofola a.s. (a company incorporated and existing under Czech law) or (iii) Kofola a.s. (a company incorporated and existing under Slovak law) occurs. "**Change of Control**" shall be deemed to have occurred if the Issuer ceases to own, directly or indirectly, 51 per cent. or more of the issued ordinary share capital of either (i) Kofola ČeskoSlovensko a.s. (a company incorporated and existing under Czech law) or (ii) Kofola a.s. (a company incorporated and existing under Czech law) or (iii) Kofola a.s. (a company incorporated and existing under Slovak law),

or

(i) Kofola ČeskoSlovensko a.s. (a company incorporated and existing under Czech law) or (ii) Kofola a.s. (a company incorporated and existing under Czech law) or (iii) Kofola a.s. (a company incorporated and existing under Slovak law), as the case may be, ceases to be under Exclusive Control of the Issuer or its shareholders. "**Exclusive Control**" means the exclusive power to direct the management and policies or affairs of an entity, directly or indirectly, and whether through the ownership of voting capital, power to appoint/recall the majority of members of the board of directors or supervisory board members, by contract or otherwise;

then any Noteholder, at its discretion, by a written notice addressed to the Issuer and delivered to the Fiscal and Paying Agent at the address of the Specified Office on the 45th (forty-fifth) Business Day following the day of publication of the Change of Control Notice (as defined below) at the latest (the "**Early Redemption Notice**"), may request early redemption of the Notes held by such Noteholder which the Noteholder undertakes not to dispose of since that moment, plus any accrued and unpaid interest thereon pursuant to Article 5.1 of these Terms and Conditions, as at the Early Redemption Date (as this term is defined below), and the Issuer is obliged to redeem such Notes (together with accrued and unpaid interest thereon) in accordance with Article 6.4.2 of these Terms and Conditions.

The Issuer must, without undue delay but at the latest on the 5th (fifth) Business Day following the day on which it learns about the change of control event described above in this Article 6.4.1, notify the Noteholders in the manner set forth in Article 13 of these Terms and Conditions of the relevant change of control event (the "**Change of Control Notice**").

6.4.2 Maturity of Accelerated Notes

Any and all amounts payable by the Issuer to any Noteholder according to the foregoing Article 6.4.1 of these Terms and Conditions will become due and payable as of the last Business Day of the month following the month in which the Noteholder delivered the relevant Early Redemption Notice, addressed to the Issuer, to the Specified Office of the Fiscal and Paying Agent (the "**Early Redemption Date**").

6.4.3 Withdrawal of Early Redemption Notice

A Noteholder may withdraw, in writing, the Early Redemption Notice but only with respect to the Notes held by such Noteholder and only if such withdrawal is addressed to the Issuer and delivered to the Fiscal and Paying Agent at the address of the Specified Office before the relevant amounts become due and payable according to preceding Article 6.4.2 of these Terms and Conditions. However, any such withdrawal of the Early Redemption Notice will not affect any Early Redemption Notices given by the other Noteholders.

6.4.4 Other Conditions for Early Redemption of the Notes

The provisions of Article 7 of these Terms and Conditions will apply *mutatis mutandis* to the early redemption of the Notes pursuant to this Article 6.4.

6.5 Deemed Payment

For the purpose of Article 4, all liabilities of the Issuer under the Notes will be deemed fully discharged as of the date on which the Issuer pays to the Fiscal and Paying Agent the full amount of the nominal value (principal) of the Notes together with accrued interest thereon (if relevant) payable in accordance with Articles 5, 6, 9, 12.4.1 and 12.4.2 of these Terms and Conditions.

7. Payment Terms

7.1 Currency of Payments

The Issuer undertakes to pay interest on and repay the nominal value of the Notes solely in Czech crowns, or in any other lawful currency of the Czech Republic that might replace the Czech crown. The interest will be paid to the Noteholders and the nominal value of the Notes will be repaid subject to and in accordance with these Terms and Conditions, and the tax, foreign exchange and other applicable laws of the Czech Republic in effect at the time of the relevant payment.

In the event that the Czech crown in which the Notes are denominated and in which the payments relating to the Notes should be made in compliance with these Terms and Conditions ceases to exist and is replaced by the Euro currency, (i) the denomination of such Notes will be changed to Euro in conformity with the applicable laws, and (ii) all monetary liabilities arising from such Notes will automatically and without any further notice to the Noteholders be payable in Euro, with the official rate (i.e. the fixed conversion ratio) in accordance with the applicable law being used as the exchange rate between Czech crown (CZK) and euro (EUR). Such replacement of the Czech crown (i) will not, in any respect, affect the existence or enforceability of the Issuer's liabilities under the Notes, and (ii) for the avoidance of doubt, will not be deemed to constitute any change to these Terms and Conditions or an Event of Default under these Terms and Conditions.

7.2 Payment Date

The payment of interest on and the repayment of the nominal value of the Notes will be made by the Issuer through the Fiscal and Paying Agent on the dates specified in these Terms and Conditions (each such date being hereinafter referred to, according to its meaning, as the "**Interest Payment Date**" or the "**Final Redemption Date**" or the "**Early Redemption Date**" or also as the "**Payment Date**").

7.3 Business Day Convention

If any Payment Date falls on a day that is not a Business Day, such Payment Date will instead fall on the next following Business Day, and the Issuer will not be obliged to pay any interest or any other additional charges by reason of such delay in payment resulting from the application of any Business Day convention (the "**Business Day Convention**").

For the purposes of these Terms and Conditions, "**Business Day**" means any day (other than Saturday or Sunday) on which banks in the Czech Republic are open for business, and on which foreign exchange transactions and interbank payments in Czech crowns, or in any other lawful currency of the Czech Republic that might replace the Czech crown, are settled.

The Authorized Persons to whom the Issuer will repay the nominal value of the Notes will be persons on whose holder's account kept by the Central Depository, or in the register maintained by a person keeping follow-up records relating to the central registry for securities, the Notes are recorded at the close of the relevant Record Date for Nominal Value Repayment (the "**Authorized Persons**").

7.5 Payments

The Fiscal and Paying Agent will make payments to the Authorized Persons by means of wire transfer to their accounts kept with a bank in the Czech Republic according to the instruction that the respective Authorized Person delivers to the Fiscal and Paying Agent in a credible manner at the address of the Fiscal and Paying Agent's Specified Office. The instruction will be in the form of a signed written statement with an officially legalised (notarized) signature or signatures containing sufficient details of such account to allow the Fiscal and Paying Agent to make the payment and will be accompanied by an original or officially certified copy of a certificate of tax domicile of the recipient of the relevant payment (payee) for the relevant tax period and, in the event that the payee is a legal entity, also by an original or officially certified copy of a valid excerpt from the Commercial Register in respect of the payee not older than 3 (three) months (such instruction together with the excerpt from the Commercial Register (if applicable) and the certificate of tax domicile and any other relevant appendices, is hereinafter also referred to as the "**Instruction**"). Any originals of foreign official instruments or any deeds notarized abroad must be super-authenticated or certificated by the Hague Convention Apostille (whichever is relevant). The Instruction must be in a form and content reasonably acceptable to the Fiscal and Paying Agent and the Fiscal and Paying Agent may require satisfactory evidence that the person who has signed the Instruction is authorized to sign such Instruction on behalf of the Authorized Person. Such evidence must be delivered to the Fiscal and Paying Agent together with the Instruction. In this respect, the Fiscal and Paying Agent may require, without limitation, (i) the presentation of a power of attorney if the Authorized Person is represented by an agent (if necessary with an official Czech translation) and (ii) an additional confirmation of the Instruction by the Authorized Person. Notwithstanding the foregoing, neither the Fiscal and Paying Agent nor the Issuer will be obliged to examine the correctness, completeness or authenticity of any such Instruction in any manner whatsoever and neither of them will be liable for any damage incurred in connection with any delay in the delivery of such Instruction by the Authorized Person or with the delivery of an incorrect or otherwise defective Instruction. The Instruction will be deemed properly made if it contains all the items required by this Article, is delivered to the Fiscal and Paying Agent in accordance with this Article and complies with the requirements of this Article in all other respects.

The Instruction will be deemed filed in a timely manner if it is delivered to the Fiscal and Paying Agent not later than 15 (fifteen) Business Days before the relevant Payment Date.

The Issuer's liability to pay any amount due in connection with the Notes will be deemed discharged in a due and timely manner, if the relevant amount has been remitted to the Authorized Person in compliance with a proper Instruction pursuant to this [Article 7.5](#) and if such amount is credited to the account of the Authorized Person's bank with the clearing centre of the Czech National Bank not later than on the relevant due date of such amount.

Neither the Issuer nor the Fiscal and Paying Agent will be liable for any delay in the payment of any amount due caused by the Authorized Person, e.g. by its failure to deliver a proper Instruction in a timely manner. If any Authorized Person fails to deliver to the Fiscal and Paying Agent in time a proper Instruction under this [Article 7.5](#) of these Terms and Conditions, the Issuer's liability to pay any amount due will be deemed discharged in a due and timely manner *vis-à-vis* such Authorized Person if the relevant amount has been remitted to the Authorized Person in accordance with a proper Instruction pursuant to this [Article 7.5](#) of these Terms and Conditions and if such amount has been debited from

the Fiscal and Paying Agent's account not later than 15 (fifteen) Business Days following the day on which the Fiscal and Paying Agent received the proper Instruction, in which case such Authorized Person will have no right to receive any interest or any other yield or additional payment on account of the delay.

Neither the Issuer nor the Fiscal and Paying Agent will be liable for any damage incurred by (i) the failure to deliver in time the proper Instruction or any other documents or information required to be delivered under this Article 7.5, or (ii) such Instruction and/or related document or information being incorrect, incomplete or untrue, or (iii) circumstances beyond the control of the Issuer or the Fiscal and Paying Agent. No Authorized Person will be entitled in any such event to receive any additional payment, other compensation or interest for any such delay in the relevant payment.

Each Person Authorized to Attend the Meeting will have such number of votes out of the total number of votes that corresponds to the ratio between the nominal value of the Notes held by such person as of the Meeting Attendance Record Date to the aggregate outstanding nominal value of the Issue as of the Meeting Attendance Record Date. No voting right will be attached to any Notes held by the Issuer as of the Meeting Attendance Record Date that have not been early redeemed by the Issuer within the meaning of [Article 6.3](#) of these Terms and Conditions, and no such Notes will be taken into account in determining the presence of a quorum at the Meeting. If the Meeting decides on recalling a common proxy, the common proxy (if he is a Person Authorized to Attend the Meeting) may not exercise his voting right.

12.2.3 Attendance of the Meeting by Other Persons

The Issuer is obliged to attend the Meeting, either in person or by proxy. Other persons entitled to attend the Meeting are proxies of the Fiscal and Paying Agent, the common proxy of the Noteholders under [Article 12.3.3](#) of these Terms and Conditions (unless he is a Person Authorized to Attend the Meeting) and any guests invited by the Issuer and/or the Fiscal and Paying Agent.

12.3 Course of the Meeting; Decision-Making

12.3.1 Quorum

The Meeting will constitute a quorum if attended by the Persons Authorized to Attend the Meeting, who were, as of the Meeting Attendance Record Date, holders of the Notes the nominal value of which represents more than 30 (thirty) per cent. of the aggregate nominal value of the issued and outstanding Notes. If the Meeting decides on recalling a common proxy, any votes belonging to the common proxy (if he is a Person Authorized to Attend the Meeting) will not be included in the total number of votes. Before opening the Meeting the Issuer will inform, either alone or through the Fiscal and Paying Agent, about the number of all Notes in respect of which the Persons Authorized to Attend the Meeting are entitled to attend and vote at the Meeting in accordance with these Terms and Conditions.

12.3.2 Chairman of the Meeting

The Meeting convened by the Issuer will be presided over by a chairman appointed by the Issuer. The Meeting convened by a Noteholder or the Noteholders will be presided over by a chairman elected by a simple majority of votes of the attending Persons Authorized to Attend the Meeting. 12.3.3 Common Proxy

The Meeting may elect, by resolution, an individual or a legal entity to act as a common proxy. The common proxy is authorized under the law (i) to enforce, on behalf of all of the Noteholders, any rights associated with the Notes to the extent specified in a resolution adopted by the Meeting, (ii) to supervise the compliance with these Terms and Conditions by the Issuer, and (iii) to execute, on behalf of all of the Noteholders, any other acts or protect the Noteholders' interests in the manner and to the extent specified in a resolution adopted by the Meeting. The Meeting may recall the common proxy in the same way in which the common proxy was elected or replace him with a new common proxy.

The Meeting will decide on any issues on its agenda in the form of resolutions. Any resolution that (i) approves a proposal pursuant to Article 12.1.2 (a) of these Terms and Conditions, or (ii) appoints or recalls a common proxy, will require the affirmative vote of at least 3/4 (three-quarters) of the attending Persons Authorized to Attend the Meeting. Unless provided otherwise by law, any other resolutions will require a simple majority of votes of the attending Persons Authorized to Attend the Meeting in order to pass.

12.3.5 Adjourned Meeting

If within 1 (one) hour after the scheduled opening of the Meeting a quorum is not present, then such Meeting will be automatically adjourned without further notice.

The holding of a substitute Meeting with the unchanged agenda will be notified to the Noteholders not later than 15 (fifteen) days after the scheduled date of the original Meeting. The substitute Meeting deciding on amendments to the Terms and Conditions according to Article 12.1.2 (a) of these Terms and Conditions will have a quorum irrespective of the conditions for quorum set out in Article 12.3.1 above.

This right must be exercised by the Applicant within 30 (thirty) days of the publication date of such Meeting resolution according to Article 12.5 of these Terms and Conditions by a written notice (the "**Application**") addressed to the Issuer and delivered to the Specified Office of the Fiscal and Paying Agent, failing which the right will terminate. The amounts referred to above will become due and payable within 30 (thirty) days from the date the Application was delivered to the Fiscal and Paying Agent (the "**Early Redemption Date**").

12.4.2 Resolution on Early Redemption of the Notes upon Noteholders' Request

If the Meeting agenda includes a Material Change under Article 12.1.2 (b) through (g) of these Terms and Conditions and the Meeting does not consent to such a Material Change, the Meeting may, even beyond the scope of the agenda, decide that if the Issuer proceeds in conflict with the resolution of the Meeting that disagreed with such a Material Change under Article 12.1.2 (b) through (g) of these Terms and Conditions, the Issuer will be obliged to prepay the nominal value of the Notes and any pro-rata interest accrued thereon (if relevant) to any Noteholder who requests such early repayment (the "**Applicant**"). This right must be exercised by the Applicant by a written notice (the "**Application**") addressed to the Issuer and delivered to the Specified Office of the Fiscal and Paying Agent. The amounts referred to above will become due and payable within 30 (thirty) days from the date the Application was delivered to the Fiscal and Paying Agent (the "**Early Redemption Date**").

12.4.3 Requirements as to the Application

The Application will specify the number of Notes the redemption of which is claimed in compliance with this Article. The Application must be in writing and signed by persons authorized to act on behalf of the Applicant, the authenticity of such signatures to be officially verified. Within the same time limit, the Applicant is obliged to deliver to the Specified Office of the Fiscal and Paying Agent all the documents required for making the payment under Article 7 of these Terms and Conditions.

12.5 Minutes of the Meeting

Minutes of the business transacted at the Meeting will be taken by the person who convened the Meeting or by a person authorized by such person within 30 (thirty) days after the date of the Meeting. The minutes will contain the conclusions of the Meeting, including, without limitation, any resolutions adopted by such Meeting. If the Meeting is convened by a Noteholder or the Noteholders, the minutes of such Meeting must also be delivered to the Issuer at the Specified Office address not later than 30 (thirty) days after the date of the Meeting. The Issuer is obliged to keep the minutes of the Meeting until the rights under the Notes come under the statute of limitations. The minutes of the Meeting will be available for inspection by the Noteholders at the Specified Office during regular office hours. The Issuer is obliged, in person or through his authorized person (especially the Fiscal and Paying Agent), to publish all resolutions of the Meeting in the manner set forth in Article 13 of these Terms and Conditions not later than 30 (thirty) days after the date of the Meeting. If the Meeting has discussed a resolution on any of the Material Changes referred to in Article 12.1.2 (a) through (g) of these Terms and Conditions, a notarial record must be made of the attendance at Meeting and the resolutions adopted by the Meeting. If the Meeting adopts any such resolution, the notarial record will also contain the names of the Persons Authorized to Attend the Meeting who validly voted for the adoption of such resolution and the number of Notes held by such persons as of the Meeting Attendance Record Date.

13. Notices

Any notice to the Noteholders will be valid and effective if published in the English language on the Issuer's website: www.kofola.pl. If the mandatory provisions of applicable laws or these Terms and Conditions determine any other method for publishing any of the notices given hereunder, such notice will be deemed to be validly published upon its publication in the manner prescribed by the relevant legislation. In case of any notice published in several manners, the publication date of such notice will be deemed to be the date of its first publication.

14. Governing Law, Language and Dispute Resolution

Any rights and obligations under the Notes will be governed by, and interpreted and construed in accordance with, the laws of the Czech Republic. These Terms and Conditions may be translated into other languages. In the event of any inconsistencies between the various language versions, the English language version shall prevail. Any dispute between the Issuer and the Noteholders arising out of or in connection with the Notes or these Terms and Conditions shall be finally resolved by the Regional Court in Ostrava.

The Noteholders should be aware that the Issuer as such is an entity established and operating in accordance with Polish law. The judgments given in a civil or commercial case by a court in an EU Member State are enforceable in Poland because the Council Regulation (ES) No. 44/2001 from 22 December 2000 on competence, recognition and execution of court rulings in civil and trade matters is directly applicable in Poland. The only Member State of the EU where Council Regulation (ES) No. 44/2001 does not apply is Denmark.

16. TAXATION

The information included in this chapter is presented as general information for analysis of the tax situation and was obtained from publicly available sources. The Issuer or its advisers make no representations as to the accuracy or completeness of the information included herein. Any prospective purchasers of the Notes should therefore not rely upon the information included herein and are advised to consult their own legal and tax advisers as to all tax aspects of the purchase, sale and holding of the Notes as well as receipt of payments of interest related to the Notes in compliance with the tax legislation effective in Poland and in the country of which they are residents as well as in countries where the proceeds of holding and the sale of the Notes may be subject to taxation.

The following general summary of taxation of Notes draws mainly upon the Corporate Income Tax Act³ of 15 February 1992 (the "CIT Law") and Personal Income Tax Act of 26 July 1991⁴ (the "PIT Law") and any applicable rules and regulations in force as of the date of the Prospectus, as well as arising out of the general interpretation of those acts and other legislation enforced by the Polish authorities and other public administration bodies and known to the Issuer as of the date of the Prospectus. All information below is subject to change based on amendments to the applicable legislation that may take place after that date or changes in the interpretation of the applicable legislation that could be applied after the date of the Prospectus.

(A) Key tax issues corresponding to earnings on Notes

Polish tax laws provide for different regimes depending on the status that particular entities have for tax purposes. In this respect, different treatment may be applied with regard to:

1. Income received by individuals residing in Poland for tax purposes

Individuals may earn profits on (i) disposal of Notes or (ii) interest/discount corresponding to the Notes.

1.1. Taxation of income earned on disposal of Notes

1.1.1. General information regarding taxes applicable to income earned on disposal of Notes

Where a Polish individual tax resident disposes Notes, he/she is subject to PIT under art. 30b of the PIT Law. Under this regime, the individual is subject to PIT at the difference between the remuneration received upon disposal of Notes and the expenses corresponding to the purchase or acquisition of the Notes. The income earned on disposal is subject to PIT at 19% (a different regime applies if the Notes are being sold in course of regular business. In such a case, income earned on Notes should be taxed similarly as the remaining income earned with respect to the business activity – the individual may be then subject to tax at 19% or progressive rates of 18% and 32%).

1.1.2. Reporting obligations resulting from disposing of Notes

Under art. 39 sec. 3 of the PIT Law, individuals engaged in the regular business activity, corporations and organizations not being legal entities, should report the income earned on sale of Notes by the individuals (specific forms are required). By the end of February, the information should be sent or delivered to the individual earning income on the disposal of Notes and the Tax Office of the individual.

³ Corporate Income Tax Act of 15 February 1992 (consolidated version: Journal of Laws of 2011, no. 74, item 397 with amendments)

⁴ Personal Income Tax Act 26 July 1991 (consolidated version: Journal of Laws of 2012, item 361 with amendments)

1.1.3. *Tax settlements corresponding to disposal of Notes*

Following art. 30b sec. 6 of the PIT Law, individuals should report the income and calculate the amount of the corresponding tax due in the annual PIT return (the details regarding the return are covered in art. 45 sec. 1a point 1 of the PIT Law). If the Notes are being disposed within the regular business activity of an individual, he/she should pay PIT advances as stated in art. 44 sec. 1 point 1 and file a tax return covered in art. 45 sec. 1 or sec. 1a point 2.

1.2. *Taxation of the received interest or discount*

Under art. 17 sec. 1 point 3 of the PIT Law, interest (discount) received from Notes are qualified as capital gains. Such revenue should be treated separately from other income/revenue earned by the individual and taxed at 19% (art. 30a sec. 1 point 2 of the PIT Law).

The tax due on the interest/discount should be withheld by a tax remitter, being the entity paying (or making the assets/cash available) to the individual or the entity running the investment account of the individual (where such an entity is an intermediately of the payment and the interest/payment are deemed to be sourced in Poland and correspond to Notes recorded on the investment account). The remitter should withhold the tax when paying to the individual and transfer the tax amount to the Tax Office being relevant for the remitter until the 20th day of the following month of payment (art. 42 sec. 1 of the PIT Law).

2. ***Income earned by non-resident individuals in Poland***

2.1. *Taxation of income earned on disposal of Notes*

Non-resident individuals are subject to the domestic tax regime as regards the income earned on disposal of Notes, unless the double tax treaty at hand states otherwise. Under specific regulations included in the Poland-Czech Republic Double Tax Treaty⁵, income earned on disposal of Notes should be treated as capital gains under Article 13. Under this regime, individuals residing in the Czech Republic for tax purposes should be generally taxed there with respect to the capital gains earned in Poland (unless more specific regime applies – e.g. where a Czech tax resident disposes the Notes being allocated to a Poland-based permanent establishment).

Individuals running regular business, corporations and organizational units not being legal entities should report the income earned by the individuals upon disposal of Notes to the Tax Office being relevant for non-residents by the end of February. Upon written request of the individual (filed with regard to the intention of leaving Poland), the entities mentioned above should prepare the report within 14 days from the request and send it to the Tax Office and the individual (art. 39 sec. 3 and 4 of the PIT Law).

2.2. *Taxation of the received interest or discount*

Under art. 17 sec. 1 point 3 of the PIT Law, the interest (discount) received from Notes should be deemed as capital gains. Such revenue should be taxed separately from other income/revenue earned by the individual at 19% (art. 30a sec. 1 point 2 of the PIT Law). This regime applies if the double tax treaty at hand does not state otherwise.

The tax due on the interest/discount should be withheld by a tax remitter, being the entity paying (or making the assets/cash available) to the individual or the entity running the investment account of the individual (where such an entity is an intermediately of the payment and the

⁵ Agreement between the Republic of Poland and the Czech Republic for the avoidance of double taxation and the prevention of fiscal evasion with respect to taxes on income (Journal of Laws of 2012, item 991)

interest/payment are deemed to be sourced in Poland and correspond to Notes recorded on the investment account). The remitter should withhold the tax when paying to the individual and transfer the tax amount to the Tax Office being relevant for the remitter until the 20th day of the following month of payment (art. 42 sec. 1 of the PIT Law).

The remitter may apply a reduced PIT rate resulting from the applicable double tax treaty if the tax residency of the individual earning profits on interest/discount is confirmed by the certificate issued by the relevant authorities of the states where the individual resides. Under the Poland-Czech Republic Double Tax Treaty, the withholding tax rate amounts generally to 5% provided that the recipient of interest is the beneficial owner.

Within the first month following the remitter's financial year, the remitter should report the revenue received by the individual upon interest/discount to the individual if he/she resides for tax purposes in (i) the EU/EEA member state (other than Poland), (ii) states associated or areas dependent to the United Kingdom or the Netherland, which concluded double tax treaties in Poland covering savings of individuals and to the Tax Office relevant for non-residents (art. 42c sec. 1,2 and 5 of the PIT Law).

With respect to the revenue earned by the remaining individuals, until the end of February of the year following the year of payment, the remitter should report the revenue received by the individual upon interest/discount to the Tax Office relevant to non-residents. Upon written request of the individual, the remitter should report within 14 days to the individual and the Tax Office (under both scenarios a specific form is required).

A separate regime applies if the interest is being paid via an omnibus account. In such a case:

- if the identity of the omnibus account participant is disclosed, then the interest payer (issuer of the Notes) should withhold the withholding tax due on the payments;
- if the identity is not disclosed, the obligation to withhold the withholding tax stays with the entity maintaining the omnibus account.

Interest received by a non-resident via a Poland-based permanent establishment is subject to the regime applicable to residents.

3. *Income earned by companies residing in Poland for tax purposes*

3.1. Taxation of income earned on disposal of Notes

Any income earned by corporations upon disposal of Notes is subject to the general corporate income tax (CIT) regime at 19%. Expenditures incurred upon purchase of the Notes are tax deductible at the moment the Notes are being disposed (art. 16 sec. 1 point 18 of the CIT Law).

3.2. Taxation of the received interest or discount

Interest/discount received by Poland-based corporations is subject to CIT at 19%.

4. *Income earned by non-resident companies in Poland*

4.1. Taxation of income earned on disposal of Notes

Non-residents earning income upon disposal of Notes are subject to domestic corporate income tax (CIT) regime unless a double tax treaty states otherwise. Consequently a 19% CIT rate applies.

Under specific regulations included in the Poland-Czech Republic Double Tax Treaty, income earned on disposal of Notes should be treated as capital gains under Article 13. Under this regime, companies residing in the Czech Republic for tax purposes should be generally taxed there with respect to the capital gains earned in Poland (unless more specific regime applies –

e.g. where a Czech tax resident disposes the Notes being allocated to a Poland-based permanent establishment).

4.2. *Taxation of the received interest or discount*

Non-residents earning interest/discount in Poland is subject to 20% withholding tax under art. 21 sec. 1 of the CIT Law, unless the relevant double tax treaty states otherwise. Under specific circumstances, interest may also enjoy 5% reduced withholding tax rate (exemption shall apply to the payments made after 30 June 2013) under art. 21 sec. 3-8 of the CIT Law (the provisions implement the Parent-Subsidiary Directive⁶ to the Polish CIT). Particular kind of entities, being e.g. investment or pension funds may enjoy an exemption if certain conditions are met.

A remitter paying the interest/discount should withhold the amount of tax due corresponding to the payments and transfer it to the Tax Office relevant to non-residents until the 7th day of the month following the month of payment (art. 26 sec. 1 of the CIT Law and art. 26 sec. 3 of the CIT Law).

Remitters may withhold the tax according to reduced rates resulting from double tax treaties if the tax residence of payment recipient is confirmed by a tax residency certificate. Under the Poland-Czech Republic Double Tax Treaty, the withholding tax rate amounts generally to 5% provided that the recipient of interest is the beneficial owner.

Reduced rate/exemption under art. 23 sec. 3a and 3b of the CIT Law may be applied only if the payment recipients provide written statement confirming that the conditions allowing for exemption has been met and the tax authorities are allowed to exchange tax information with the state where the recipient resides for tax purposes (under an appropriate agreement). A tax residency certificate is also required.

Within three months following the close of the remitter's financial year, the remitter should report the amount of income received by non-resident corporations to the payment recipient and the Tax Office relevant to non-residents. Upon a written request by the payment recipient, the remitter should prepare a report within 14 days and send it to the recipient and the Tax Office (art. 26 sec. 3a and 3b of the CIT Law). Under both scenarios, special forms are required.

A separate regime applies if the interest is being paid via an omnibus account. In such a case:

- if the identity of the omnibus account participant is disclosed, then the interest payer (issuer of the Notes) should withhold the withholding tax due on the payments;
- if the identity is not disclosed, the obligation to withhold the withholding tax stays with the entity maintaining the omnibus account. If the interest/discount is paid to unidentified corporations, 20% withholding tax applies.

Interest received by non-resident via a Poland-based permanent establishment is subject to the regime applicable to residents.

⁶ Council Directive 2011/96/EU of 30 November 2011 on the common system of taxation applicable in the case of parent companies and subsidiaries of different Member States (recast; L 345/8)

(B) Polish civil law activities corresponding to the Notes

Under art. 7 sec. 1 point 1b and art. 6 sec. 1 point 1 of the Civil Law Activities Act⁷ (the "CLAT"), sale of ownership over Notes is subject to 1% CLAT at the market value of Notes being sold.

Under art. 9 sec. 9 of the CLAT Law, sale of financial rights to (i) investment companies and foreign investment companies, (ii) performed via an investment company or a foreign investment company, (iii) within the organized trade, (iv) performed by investment company or a foreign investment company if these companies purchased the Notes within the organized trade as understood under the Act on Trading of Financial Instruments⁸ is exempt from CLAT taxation.

(C) Profit/loss on sale in the Czech Republic

Gains realised by a physical entity on the sale of Notes are subject to taxation in the Czech Republic if such Notes are sold by (i) a Czech tax resident or (ii) a Czech tax non-resident having a permanent establishment in the Czech Republic (if gains are attributable to that permanent establishment) or (iii) a Czech tax non-resident if the gains are realised on the sale to a purchaser, who is a Czech tax resident or a Czech tax non-resident having a permanent establishment in the Czech Republic (if attributable to that permanent establishment). The same are included in the general income tax base for physical entities and are subject to taxation of the income tax rate at the amount of 15%. Losses realised on the sale of notes are generally ineffective for taxation at this category of entities (but may be offset against gains from the sale of other securities realised within the same taxation period).

Gains realised by a legal entity on the sale of notes are subject to taxation in the Czech Republic if such notes are sold by (i) a Czech tax resident or (ii) a Czech tax non-resident having a permanent establishment in the Czech Republic (if gains are attributable to that permanent establishment) or (iii) a Czech tax non-resident if the gains are realised on the sale to a purchaser, who is a Czech tax resident or a Czech tax non-resident having a permanent establishment in the Czech Republic (if gains are attributable to that permanent establishment). The same are included in the general income tax base for legal entities and are subject to taxation of the income tax rate at the amount of 19%. Losses realised on the sale of notes are effective for taxation at this category of entities.

Profits from sale of notes realized by physical entities can be exempt from income tax under certain circumstances; provided that the Notes are not included in the Noteholder's business assets and the Noteholder's overall share of the company's registered capital and voting right did not exceed 5% during the period of 24 months before the securities sale and provided that between the purchase and the sale of Notes is a time period of at least 6 calendar months.

If the Notes are sold by a Czech tax non-resident Noteholder, who is not at the same time an EU or EEA tax resident, to a Czech resident purchaser or to a Czech tax non-resident purchaser having either a permanent establishment in the Czech Republic or employees located in the Czech Republic for more than 183 days, such purchasers shall be generally obliged to withhold 1% of such income as securing tax when paying the purchase price for the notes. The tax administrator may, if the non-resident Noteholder (seller) does not file its tax return within the statutory deadline, deem the income tax liability of the non-resident Noteholder (seller) secured by means of securing tax withheld as discharged and paid.

A double taxation treaty between the Czech Republic and a country where the Noteholder is resident may eliminate the taxation of gains from the disposition of Notes in the Czech Republic. Any application of such regime set out in a double taxation treaty may be conditional upon a proof that the relevant double taxation agreement applies to the Noteholder.

17. ENFORCEMENT OF CIVIL LIABILITIES AGAINST THE ISSUER

The information included in this chapter is presented as general information for analysis of legal situation and was obtained from publicly available sources. The Issuer or its advisers make no representation as to the accuracy or completeness of the information included herein. Any prospective purchasers of the Notes should therefore not rely upon the information included herein and are recommended to contact their legal advisers for consultation about the enforcement of claims in respect of the Issuer's private law liabilities within any relevant jurisdiction.

The Issuer has not given any consent as to the exclusive jurisdiction of any international court in connection with any legal action in connection with the purchase of any Notes, or named an agent for process in any jurisdiction. As a result, it may not be possible for the purchasers of the Notes to bring a claim or to effect any process against the Issuer abroad or to enforce judgments against the Issuer before any foreign courts or to enforce judgments obtained in such courts based upon foreign laws.

Enforcement in Poland

The Issuer is an entity established and operating in accordance with Polish law.

Where the Republic of Poland and the relevant state are parties to an international treaty on the recognition and execution of court judgments, the execution of court judgments given in any such state is provided in compliance with the provisions of that particular international treaty. In the absence of such treaty, judgments issued by foreign courts may be recognized and executed in the Republic of Poland subject to the provisions of the Polish Code of Civil Procedure Act of 17 November 1964, as amended. Under this Act no rulings of any foreign courts in cases described in Section 1 of the above-described Polish Code of Civil Procedure, conciliations before foreign courts, and foreign notary deeds (jointly "**Foreign Rulings**"), may be recognized and enforced if: (i) is not final in the country in which it was issued; (ii) it was issued in the case which is subject to the exclusive jurisdiction of Polish courts; (iii) the defendant, who did not enter a dispute as to the merits of the case, was not served the document instituting the proceedings properly and in sufficient time to enable the defense; (iv) a party was deprived of the ability to defend itself in the course of the proceedings; (v) the case relating to the same claim between the same parties was pending in the Republic of Poland earlier than before a foreign court; (vi) it is contrary to a previous final judgment of a Polish court or a previous final judgment of a foreign court, which meets the conditions for its recognition in the Republic of Poland, issued in the case concerning the same claim between the same parties; (vii) the recognition would be contrary to the fundamental principles of legal order of the Republic of Poland (public order clause).

Under the Civil Procedure Code, foreign court judgments in civil matters that are carried out through enforcement proceedings are considered to be enforcement titles and will be enforceable in Poland, if the judgment is enforceable in the country in which it was issued. Foreign judgments in civil cases, enforceable by way of enforcement, become enforcement titles, once their enforceability is declared by a Polish court. The enforceability is declared if the judgment is enforceable in the country of its origin, and there no obstacles, including, as the ones referred to above for the recognition of judgments. The recognition and enforcement of judgments issued by the courts of EU Countries is regulated by the EC Regulation No 44/2001 of 22 December 2000, on Jurisdiction and Enforcement of Court Judgments in Civil and Commercial Matters. The Issuer cannot provide assurance that all conditions precedent to the enforcement of foreign judgments in Poland will be met or that any particular judgment will be enforceable in Poland.

18. SUBSCRIPTION AND SALE

The distribution of this Prospectus as well as any offers, sale or purchase of the Notes are restricted by law in some jurisdictions. The Issuer will not ask for approval or recognition of the Prospectus (including its supplements, if any) in other jurisdiction, the Notes will not be registered, permitted or approved by any administrative or other authority in any jurisdiction with the exception of the CNB and, accordingly, no placement will be possible outside of the Czech Republic (eventually other countries which would without other conditions recognize the Prospectus approved by the CNB as a prospectus allowing Note offering in such country). All persons in possession of this Prospectus will be responsible for observing any restrictions relating to offers, purchase and sale of the Notes and the possession and distribution of any documents relating to the Notes in all relevant jurisdictions.

In addition to the above, the Issuer asks the subscribers of each Note and the Note acquirers to observe all relevant restrictions in each country (including the Czech Republic) where they would purchase, offer, sell or otherwise transfer the Notes or where they would distribute, make accessible or otherwise circulate this Prospectus including its supplements, if any, or any other offering or promotional material or information in connection with the Notes, in each case at their own expense and irrespective of whether the Prospectus or its supplements or any other offering or promotional material or information in connection with the Notes is recorded in the printed form or in the electronic or any other intangible form.

The Issuer also demands all subscribers and Note acquirers not to offer publicly any Notes in accordance with the respective legal prescriptions. In other jurisdictions Note offer may be limited by legal prescriptions of such jurisdictions and may require approval, recognition or translation of the Prospectus or of its part or other documents by a competent authority.

Any offer of any Notes made by the Issuer (including the distribution of this Prospectus to selected investors on a confidential basis in the Czech Republic prior to the approval of this Prospectus by the CNB and prior to its publication) will be made pursuant to Section 35 (2) lett. c) and d) of the ACMU. Such offer does not require prior publication of a prospectus of the offered security. Accordingly, the Issuer notifies all potential investors and other persons of the fact that any Notes may only be acquired by investors for an aggregate issue price equal to or in excess of the equivalent of EUR 100,000 per one investor. The Issuer will not be bound by any order of any potential investor for subscription or purchase of any Notes if the aggregate issue price for the ordered Notes is less than the equivalent of EUR 100,000.

Any person that acquires any Notes will be deemed to have represented and agreed that (i) such person acknowledges all relevant restrictions on the offer and sale of the Notes, in particular in the Czech Republic, relating to such person and the relevant method of offer or sale, (ii) such person will not further offer for sale or sell the Notes without complying with all relevant restrictions applicable to such person and to the relevant method of offer and sale and (iii) before further offering for sale or further selling the Notes, such person will inform the potential buyers that in certain jurisdictions, further offer or sale of the Notes may be subject to legal restrictions, which must be observed.

The Issuer would like to draw the attention of potential investors to the fact that the Notes have not been and will not be registered under the U.S. 1933 Securities Act, as amended (the "**U.S. Securities Act**") or by any securities commission or any other authority of any State of the United States and therefore will not be offered, sold or transferred within the United States or to U.S. residents (as defined in Regulation S implementing the U.S. Securities Act) except pursuant to an exemption from the registration duty under the U.S. Securities Act or in transactions not subjected to registration under the U.S. Securities Act.

The Issuer further wishes to point out that the Notes will not be offered or sold in the United Kingdom of Great Britain and Northern Ireland (the "**United Kingdom**") by way of distributing any documents or

notices except for offers to persons authorized to trade with securities on their own or on someone else's account in the United Kingdom or under such circumstances that do not constitute a public offer of securities under the 1985 Companies Act, as amended. All legal acts pertaining to the Notes made in the United Kingdom, from the United Kingdom or otherwise associated with the United Kingdom in any manner whatsoever will also be performed in compliance with the 2000 (FSMA 2000) legislation governing financial services, including the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005, and with the Prospectus Regulations 2005, as amended.

An application has been made for the Notes to be admitted to listing on the regulated market (*Regulovaný trh*) of the PSE. The expenses related to the admission to trading of the Notes on the regulated market of the PSE are expected to be CZK 50,000.

Except for Česká spořitelna, a.s., acting as a Joint Lead Manager, Fiscal and Paying Agent and Calculation Agent, and PPF banka a.s., acting as a Joint Lead Manager and Listing Agent, no person has any interest, including conflicting ones, known to the Issuer that would be material to the Issue.
